

Curriculum Vitae:

Lenis Saweda Onipede Liverpool-Tasie

lliverp@msu.edu , +15174325418

MSU Research Foundation Distinguished Professor, Department of Agricultural, Food and Resource Economics, Michigan State University, 446 West Circle Drive, Justin S. Morrill Hall of Agriculture, Room 204, East Lansing MI 48824-1039 USA

PROFESSIONAL EXPERIENCE

Research Director, MSU's Food Security Group (2025- present)
Research Foundation Distinguished professor (2022-present) Michigan State University
Visiting Scientist (2022-2024) International Institute for Tropical Agriculture (IITA), Ibadan, Nigeria
Professor (2022 – present) Michigan State University
Associate Professor (2018-2022) Michigan State University
Assistant Professor (2012-18) Michigan State University
Post-Doctoral Fellow (2009-2012) International Food Policy Research Institute (IFPRI)

EDUCATION

PhD. Agricultural and Consumer Economics, October 2009
University of Illinois, Urbana-Champaign
Focus: *International Development and Policy*
Dissertation Topic: **“Using Asset poverty measures to understand poverty dynamics, poverty traps and farmer behavior: A focus on rural Ethiopia.**

M.S., Urban and Regional Planning, May 2004
The University of Iowa, Iowa City, IA
Focus: *Economic Development Planning*

M.A. Third World Development Support, June 2004
The University of Iowa, Iowa City, IA
Focus: *Gender, Information Technology, Education and Economic Development*

B.Sc. Hons., Economics, November 2001
The University of Jos, Jos, Nigeria

SCHOLARSHIP BASED AWARDS/RECOGNITIONS/FELLOWSHIPS

- **2025. UC Berkeley Development Practitioner of the Year:** An annual award given by the University's Master of Development Practice Program; an interdisciplinary,

professional degree program designed to prepare the next generation of leaders to tackle local, regional, and global challenges.

- **2022 Appointment to the Board for International Food and Agricultural Development (BIFAD).** A presidential appointment to advise USAID in the fight to end hunger and poverty across the globe
- **2022 CANR Global Research Scholars Award.** An award from the Michigan State University College of Agriculture and Natural Resources to recognize exceptional achievements and success.
- **2021/2022 Departmental Excellence in Research Award.** An individual award in recognition of the number and quality of research publications
- **2020/2021 Top Cited Article in “Journal of Agricultural Economics (JAE)”.** A certificate of recognition from JAE for Liverpool-Tasie and Parki, C. (2020). *Climate Risk and Technology Adoption in the Midstream of Crop Value Chains: Evidence from Nigerian Maize Traders*
- **2020/2021 Top Cited Article in “Agricultural Economics (AE)”.** A certificate of recognition from AE for Fung, Liverpool-Tasie et al. (2020). *Do crop purchase programs improve smallholder welfare? The case of Zambia's Food Reserve Agency*
- **2020/2021 Top Cited Article in “Applied Economic Perspectives and Policy (AEPP)”.** A certificate of recognition from AEPP for, Liverpool-Tasie et al. (2020). *"Essential non-essentials": COVID-19 policy missteps in Nigeria rooted in persistent myths about African food supply chains*
- **2020/2021 Departmental Excellence in Research Award.** An individual award in recognition of the number and quality of research publications making both policy and disciplinary contributions and carried out collaboratively.
- **2021 Incorporated into the Subject Matter Expert Roster of the CGIAR Advisory Services (CAS)**
- **2019/2020 Departmental Excellence in Outreach and Extension Award.** A team award for the Food Security Policy Innovation Lab.
- **2018/2019 Departmental Excellence in Outreach and Extension Award.** An Individual award in recognition of the value of the Nigeria Agricultural Policy Project as an example of institution building and outreach of research via a unique model of training and mentoring via collaborative research.
- **2018/19 MSU Teacher Scholar Award.** This award is given to six MSU faculty members every year, who early in their careers have earned the respect of students and colleagues for their devotion to and skill in teaching. The essential purpose of the award is to provide recognition to the best teachers who have served at MSU for seven years or less, taking into consideration that the most effective teachers will have their instruction intricately linked to and informed by their research and creative activities.
- **2017 AAEA Bruce Gardner Memorial Prize for Applied Policy Analysis (team award).** A national award that recognizes contributions to “practical, rigorous policy research” that has impacted several African countries.
- **2017 Meritorious Award of the Nigerian Association of Agricultural Economists**

This award was for “outstanding contribution as a great academic and for the development of research among young agricultural economists in developing nations.

2016 John K. Hudzik Emerging Leader in Advancing International Studies and Programs Award. A university award that recognizes a faculty member early in his/her career who is making a significant impact on the advancement of international scholarship, teaching, and/or public service and outreach at Michigan State University.

- **2020-Date-Invited to serve on advisory board of Advancing Local Leadership, Innovation and Networks (ALL-IN)** (a collaboration between the International Centre for Evaluation and Development (ICED) and the Feed the Future Innovation Lab for Markets, Risk and Resilience (MRR Innovation Lab) at the University of California, Davis).
- **2020-2022- Invited by the World Bank Group (WBG)** to serve as a reviewer of WBG contributions in supporting the development of more productive, inclusive and sustainable farms and agribusiness firms in developing countries.
- **2021-Date-** Invited to join the new international Research Network Sustainable Global Supply Chains being coordinated by German Development Institute (DIE) and other think tanks in Europe
- **2016- Major Professor** to Serge, Adjognon, **recipient of the 2016 Best PhD Dissertation Award** in the department of Agricultural, Food, and Resource Economics.
- **2015- Major Professor** to Ayala Wineman, **recipient of the 2015 Best PhD Dissertation Award** in the department of Agricultural, Food, and Resource Economics.
- **2015- Major Professor** to Awa Sanou, **recipient of the 2015 Best Master’s Thesis Award** in the department of Agricultural, Food, and Resource Economics.
- **2015-2020-Associate Editor** - “Agricultural Economics” The flagship Journal of the International Association of Agricultural Economists.
- **2016/17 Elected Chair, African Section, Agricultural and Applied Economics Association (AAEA).** This is a three-year position within the section. - first as Chair-Elect (2016-2017) with responsibility to design and organize the track sessions for the 2017 Annual Meeting, then as Chair (2017-2018) responsible for the overall management of the Section, and finally as Past-Chair (2018-2019) largely responsible for elections.
- **2015-2021-Lead Principal Investigator:** Grant to Enhancing Knowledge and Capacity to Strengthen Agricultural and Food Security Policy Processes in Nigeria
- **2012-2016-Research Project Lead for Nigeria** under Guiding Investments in Sustaining Guiding Investments in Sustainable Agricultural Intensification in Africa (GISAIA)
- **2011 IFPRI Director General Special Award** This award is given in recognition of “excellent employee performance and special achievements under challenging circumstances.”

- **2009-Most outstanding PhD dissertation (2009)** in the Department of Agricultural and Consumer Economics University of Illinois, Urbana-Champaign
- **2006/07-Norman Borlaug Fellow** (Leadership Enhancement in Agriculture Program): Worked with The International Food and Policy Research Institute in Addis Ababa, Ethiopia
- **2000-Highest CGPA** in graduating class: Department of Economics, University of Jos, Nigeria.
- **1996-1999- University Scholar Award** for three consecutive years. This is an award for the student with the highest CGPA in the program: Department of Economics, University of Jos, Nigeria

CURRENT/RECENT GRANTS AND RESEARCH PROJECTS

- Lead Principal Investigator on a Bill and Melinda Gates Foundation grant “Research supporting African MSMEs to provide affordable, safe and nutritious food” (2021-2027)
(\$4 million)
 - To characterize the macro and meso (market) environments within which MSMEs in Nigeria and Tanzania operate
 - To understand MSME behavior (e.g. procurement, production and distribution decisions) within these environments
 - To co-create and evaluate interventions to encourage/enable MSMEs provide affordable, safe and nutritious food
- Principal Investigator on a Bill and Melinda Gates Foundation grant “ Linked Farms and Enterprises for Inclusive Agricultural Transformation in Africa and Asia-INCATA ” (2024-2026)
(\$800,000)
 - To characterize the main commercialization patterns among small-scale producers, and what policy and non-policy factors shape their engagement with hidden-middle MSMEs?
 - To identify which commercial small-scale producers (cSSPs) and micro, small, and medium scale enterprises (MSMEs) succeed in raising incomes, investing, adopting new technologies, and accessing higher-value markets
 - To identify the extent that increased commercialization of SSPs and expansion of MSMEs translate into poverty reduction and gains in women’s economic empowerment (WEE)?
 - To highlight which investments and public policies have the greatest potential to support the joint development of cSSPs and MSMEs?
- Co-Principal investigator on the Plus Fish Philanthropy grant on Africa’s Safety-net fisheries 2026-2027
(\$722,564.80)

- Characterizing the activities of fisheries units in four study countries in Africa (Liberia, Malawi, Congo, and Namibia)
- Demonstrating the contribution of fisheries units to the livelihoods and economy of the four study countries
- Understanding what policy support can improve the operation of the study fisheries

CURRENT TEACHING, LEADERSHIP AND ADVISING RESPONSIBILITIES

AFRE 861: AGRICULTURE IN ECONOMIC DEVELOPMENT-GRADUATE

The course is a survey of agri-food sector and rural development issues, primarily from the perspective of economic structural change, influenced by and influencing changes in policies, institutions, organizations, and technologies. The course is a core class for PhD students in the field of Development Economics and examines the relationships between agriculture and other sectors of the economy during economic development. One of my key goals for this course is to provide students with the foundational toolkit that Agricultural Economists working in development and policy need and to develop their skills of research discovery and execution. I analyze policy issues in the food and agricultural systems of low- and middle-income countries and analyze how to accelerate broad-based agricultural and rural economic development. The course discusses the role of governments, private sector, and NGOs in agricultural development with a series of case studies of various regions. As in AFRE 206, I use my research to motivate and demonstrate the various dimensions of the interaction between agriculture and other sectors of the economy and thus incorporate a significant amount of content from sub-Saharan Africa.

GRADUATE STUDENT ADVISING

Since 2012, I have served or am currently serving on the advisory committees of 29 graduate students at Michigan State University. As major professor, I have graduated 9 PhD students and 2 master's students. Three of these students (two PhD and one master's) received departmental awards for the best dissertation or master's thesis. In addition, one master's thesis received an Honorable Mention at the 2016 Agricultural and Applied Economics Association (AAEA) Awards.

I currently chair or co-chair the dissertation/thesis committees of two PhD students and one master's student. My advisees have been successfully placed in a wide range of national and international organizations. PhD graduates under my supervision have secured positions at academic institutions, including the University of Wyoming, the Evans School of Public Policy, Michigan State University, the World Bank, USDA Economic Research Service (ERS), international organizations such as the Mastercard Foundation, and the private sector.

Beyond graduate student supervision, I have mentored more than 30 early-career African scholars, including over 20 Nigerian graduate students and young professionals, through my international research and capacity-strengthening activities.

RESEARCH DIRECTOR FOR THE AFRE INTERNATIONAL DEVELOPMENT WORK

Since 2023, I have played a leadership role in advancing international development work within the department of Agricultural, Food, and Resource Economics at MSU. In 2025, I assumed the role of Research Director of the Food Security Group (FSG), with primary responsibility for providing strategic leadership in international development research within AFRE and FSG. In this role, I work to promote high-quality, impactful research that advances the department's mission and strengthens its global profile.

Key responsibilities include:

- Driving Strategic Vision: Provide visionary leadership to advance AFRE's mission of conducting world-class research that transforms economies and improves lives in low-income countries through rigorous, evidence-based food and nutrition policy research.
- Research Theme Coordination: Facilitate the identification, refinement, and development of core research themes in collaboration with AFRE and FSG faculty. This work builds on the department's strategic planning process and ensures alignment between faculty research efforts and FSG's long term goals

PAST TEACHING: AFRE 206: WORLD FOOD POPULATION AND POVERTY - 3 CREDIT HOURS- UNDERGRADUATE

This course (taught from 2012-2022) explores key concepts and issues related to world food, population, and poverty; and their interrelationships. The concepts presented in this course provide students with an analytical framework for critically assessing current trends in development and poverty in light of the rapid changes in the structure of food demand, supply and distribution. The course explores alternative solutions to food, population, and poverty problems, including the role of new technology, institutional change, government policies and trade. It uses lectures, group discussions and case studies to link economic theory to real life. It also combines traditional micro economic principles with more accessible information from reputable media sources to make abstract principles more concrete. The class leverages interactive tools (technology and group exercises) to facilitate class discussions and organize a yearly cross-cultural event with a similar class in Ghana, West Africa, where both sets of students cover the same material on one topic (foreign aid) and debate it's role in promoting economic development. The course has been a basis for conducting research on teaching. A social experiment (randomized control trial) was used to explore the impact of group characteristics on student learning outcomes in the class. The findings of this experiment have been published in the [International Review of Economics Education](#) and have shaped the design of group activities in the course.

RECOGNITION IN POLICY ARENA AND GLOBAL ECONOMIC DEVELOPMENT

- Presidential Appointment to the Board for International Food and Agricultural Development (BIFAD). **(Jan, 2022)**
- Invited speaker at the 181st Board for International Food and Agricultural Development's Public Meeting in June 2020 to speak on COVID-19 and COVID-19 policy responses in Africa. **(June 2020)**
- Invited Lead Researcher under [Ceres 2030](#) to lead a team of researchers to look at the market links between value chain actors and small-scale producers in developing regions **(2019-2020)**

LEADERSHIP AND SCHOLARLY ACTIVITIES

Member Board for International Food and Agricultural Development (BIFAD) **(2022-2025)- Presidential Appointment**

<i>Member</i>	Advisory Board of the Journal <i>Development Policy Review</i> (DPR) (2021-Date)
<i>Member</i>	Advisory Board of the MSU Alliance for African Partnership (AAP) (2018-2021)
<i>Member</i>	Advisory Board of the MSU African Studies Center (2017-2019)
<i>Chair</i> (AAEA)	African Section, Agricultural and Applied Economics Association (August, 2017-2019)
<i>Associate Editor:</i>	Agricultural Economics (September, 2015- December 2020)
<i>Editor:</i>	Nigeria Agricultural Policy Research Journal (NAPReJ) (2016-Date)
<i>Member:</i>	Outstanding Master's Thesis Award Subcommittee of the Agricultural and Applied Economics Association (AAEA) (2016-2018)
<i>Reviewer:</i>	Canadian Journal of Agricultural Economics (since 2016)
<i>Reviewer:</i>	Applied Economic Perspectives and Policy (since 2011)
<i>Reviewer:</i>	World Development (since 2010)
<i>Reviewer:</i>	Food Policy (since 2011)
<i>Reviewer:</i>	Journal of Agricultural Economics (since 2012)
<i>Reviewer:</i>	Journal of Development Studies (since 2010)
<i>Reviewer:</i>	American Journal of Agricultural Economics (since 2012)
<i>Member:</i>	Agricultural and Applied Economics Association (AAEA)
<i>Member:</i>	Association of Christian Economist (ACE)
<i>Member:</i>	African Students Organization, University of Illinois, Urbana-Champaign (2004-2009)
<i>Secretary:</i>	Graduate Student Organization, Department of Agriculture and Consumer Economics, University of Illinois, Urbana Champaign, 2005
<i>Public Relations</i>	
<i>Officer:</i>	African Students Association, University of Iowa, Iowa City, (2003)
<i>Member:</i>	Gamma, Sigma, Delta: Honor society for Agriculture (2006-2008)
<i>Volunteer:</i> (2006)	Habitat for Humanity, Champaign Chapter - Homeworks store
<i>Volunteer:</i>	Iowa City Crisis Center (Food Bank) - (2001-2003)
